Full-Stack Developer | Industrial Designer

I am a **Full-Stack Developer** with a strong professional background in **industrial design and 3D modeling**. My diverse skill set allows me to approach programming challenges with a creative and analytical mindset. With experience in both technical drafting and software development, I bring a unique perspective to building functional, user-friendly applications. I'm passionate about coding solutions that blend innovation and practicality, and I'm eager to apply my skills in dynamic environments that value cross-disciplinary expertise.

EDUCATION

Industrial Design and Product Development Bachelor's Degree

Universidad Nacional de Córdoba

Full-Stack Web Development Bootcamp

ID Digital School

EXPERIENCE

Specialist in Design and Project Management

Judas Salas Blancas S.L. 2023-2025

- Led the **design and execution of cleanroom projects**, ensuring precise technical specifications and adherence to safety standards.
- Collaborated with multidisciplinary teams to oversee project timelines, managing both suppliers and subcontractors to deliver efficient results.
- Drafted detailed **blueprints and technical documents**, integrating industry best practices to meet client requirements.
- Solved complex logistical challenges, demonstrating a proactive approach in maintaining project momentum and quality standards.

Technical Drafter & 3D Modeler

FLOORFY 2020-2023

- Developed and refined **3D virtual tours** using proprietary software, significantly improving the visual experience of property listings.
- Worked closely with the development team to propose and implement software improvements, enhancing the functionality of the platform.
- Provided **training and oversight to junior technicians**, ensuring the delivery of high-quality 3D models and **accurate technical drawings**.

Industrial & Graphic Designer

Freelance 2018-2019

- Designed **3D models and animations** for various marketing and advertising projects, utilizing tools like SolidWorks and Blender.
- Created **visual branding materials** for clients, demonstrating versatility and a strong creative vision.

CAD Drafter & Technical Manager

AEC Resource (now Voyansi) 2014-2017

- Produced detailed **technical drawings and construction plans**, ensuring alignment with client needs and industry standards.
- Managed **quality control** across multiple projects, coordinating deliverables and ensuring deadlines were met.
- Worked directly with clients in a bilingual environment, facilitating clear communication and efficient project management.
- Led the training of new team members, sharing best practices in **AutoCAD and SolidWorks** to maintain high technical standards.
